

# PRIMARY STEM CHALLENGE

CREATING OUR FUTURE WORKFORCE

The Worcestershire Primary STEM Challenge is now in its third year with over 45 schools taking part in 2018/19. This year, it aims to be even bigger.

This exciting initiative will inspire the next generation of engineers to drive the future economy of Worcestershire and beyond. Throughout the challenge, students will learn about structures and mechanisms, and use their knowledge to solve a construction challenge. Worcestershire LEP and Worcestershire County Council remain committed to supporting schools in this exciting opportunity through the sponsoring of the Primary STEM Challenge.

STEMworks will be visiting schools from September onwards to deliver a half day workshop for up to 36 KS2 students, where one team will be chosen to represent your school at the area final in the summer term 2020. To take part in this exciting challenge, please complete the attached registration form and return it to STEMworks.

A partnership between

Key Stage 2

Maximum of 36 pupils

½ day session

Subsidy:  
£150 available per school

**National Curriculum Links:**  
Design Technology,  
Science & Maths

As well as developing an understanding of how these skills are used in the wider community. Further benefits include teamwork, problem solving and communication.
